SUMMARY

Full Stack Web Developer with a background in customer service and dedication to problem-solving. Earned an Associate's Degree in Computer Information Systems and a certificate in Full Stack Web Development from Columbia University Coding Boot Camp. Known among staff and cohort for strong will to succeed and commitment to learning. Strong ability to self-teach to maneuver new challenges.

TECHNICAL SKILLS

JavaScript, CSS, HTML, JQuery, Bootstrap, SQL, Sequelize, MySql, Express, Node.js, Mongo, React, GraphQL, REST API, Git

PROJECTS

SlytherinSocial
https://github.com/slytherin-CU-VIRT-BO/slytherin-social-app/tree/main
Deployed website: https://slytherin-social.herokuapp.com/
- Summary: This is a full stack (MERN) website that is built to simulate the same functionality of the leading social media websites such as Twitter, Facebook, etc.
- Role: Building out the backend using MongoDB, Apollo and GraphQL. Set up models for MongoDB and then used Apollo and GraphQL to set up the schemas to make queries and mutations to the database.
- Tools/Languages: JavaScript, CSS, MongoDB, Express, React, Node.js, Apollo, Graphql

Socialmoodia │ **https://github.com/infojunkie01/socialmoodia**
Deployed website: https://sheltered-eyrie-00891.herokuapp.com/
- Summary: This website simulates a social media website where a user can only make posts that contain emojis.
- Role: Worked mostly on front-end routing, but also helped set up database connections, server connections as well as backend routing and helped troubleshoot bugs team members encountered.
- Tools/Languages: JavaScript, Node.js, Express.js, Sequelize.js, Handlebars, bcrypt, Heroku
